B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: NRCS provided documentation that the area in question is a prior converted crop land, non wetland or highly erodible land. There areas are not subject to the Clean Water Act unless the area reverts back to wetland as a result of abandonment. If the prior converted cropland is abandoned and wetland conditions return, then the area will be subject to regulation under Section 404 of the Clean Water Act. An area will be considered abandoned if for five consecutive years there has been no cropping, management or maintenance activities related to agricultural production.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
