SECTION 594 – WRDA 1999, AS AMENDED

ENVIRONMENTAL INFRASTRUCTURE

OHIO AND NORTH DAKOTA

MODEL AGREEMENT FOR DESIGN AND CONSTRUCTION ASSISTANCE

(WORK PERFORMED BY NON-FEDERAL SPONSOR)

OCTOBER 25, 2005
REVISED - NOVEMBER 19, 2005
REVISED - MAY 6, 2014

APPLICABILITY. – The attached model agreement is one of six models for the provision of environmental assistance to non-Federal interests in Ohio and North Dakota pursuant to Section 594 of the Water Resources Development Act of 1999, Public Law 106-53, as amended (Section 594) projects. The following descriptions of the six models are provided to assist in determining the correct model to be used for your project. None of the models discussed below should be used for the provision of environmental infrastructure assistance pursuant to any other authority. Models for the provision of environmental infrastructure assistance pursuant to other authorities can be found in the approved model section of the PPA Web page. If there is no approved model posted in the approved model section of the PPA Web page that is applicable to your particular environmental infrastructure authorization, the District Project Delivery Team should consult with the appropriate HQ RIT for guidance on drafting the appropriate agreement.

***Section 594 Non-Federal Design and Construction* – The attached model should be used for Section 594 projects when the sponsor requests both design and construction of the project be undertaken in one agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. An agreement using this model may be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4347) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341). However, the necessary compliance with all applicable environmental laws and regulations will be performed during the design portion of the agreement and <u>must</u> be completed prior to initiation of construction.**

***Section 594 Non-Federal Design* – Use only for Section 594 projects when the sponsor requests design for the project be undertaken in the agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form**

of reimbursement. Since this agreement is limited to design, compliance with all applicable environmental laws and regulations is not required prior to approval and execution of the agreement.

***Section 594 Non-Federal Construction* – Use only for Section 594 projects when the sponsor requests construction of the project be undertaken in the agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. An agreement using this model may <u>not</u> be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA (42 U.S.C. 4321-4347) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341).**

***Section 594 Federal Design* – Use only for Section 594 projects when the sponsor requests design for the project be undertaken in the agreement and requests the Government to perform the work on the project. Optional language is included in the model addressing if the sponsor wants to perform some of the design. Since this agreement is limited to design, compliance with all applicable environmental laws and regulations is not required prior to approval and execution of the agreement.**

***Section 594 Federal Construction* – Use only for Section 594 projects when the sponsor requests construction of the project be undertaken in the agreement and requests the Government to perform the work on the project. Optional language is included in the model addressing if the sponsor wants to perform some of the construction. An agreement using this model may <u>not</u> be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA (42 U.S.C. 4321-4347) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341).**

***Section 594 Federal Design and Construction* – Use only for Section 594 projects when the sponsor requests both design and construction of the project be undertaken in one agreement and requests the Government to perform the work on the project. Optional language is included in the model addressing if the sponsor wants to perform some of the design or construction. An agreement using this model may be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA (42 U.S.C. 4321-4347) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341). However, the necessary compliance with all applicable environmental laws and regulations will be performed during the design portion of the agreement and <u>must</u> be completed prior to initiation of construction.**

NOTES. – The following pages (iv – xiii) contain numbered notes to assist in drafting an agreement for your project using this model. Throughout the model agreement, there are references to the numbered notes (example: [SEE NOTE – 7]) to direct you to the appropriate note that provides explanation and guidance on use of optional language or information required to fill in the blanks. Several of the notes are general in nature and should be reviewed and discussed with the sponsor during preparation of the draft

agreement for your project.

OPTIONAL LANGUAGE. – The use of optional language allows the model to be applicable to a larger universe of projects. Many of the numbered notes (example: [SEE NOTE – 7]) require you to choose between multiple versions of language or to choose whether or not to include a paragraph, sentence, or phrase depending on the specifics of your project. In many cases optional language to address a concept, such as the sponsor performing non-Federal design and construction work, is required in numerous locations throughout the agreement. Each of these locations has been identified with numbered notes; however, it is important to ensure that, if the optional language addressing a certain concept is included in one location, it is also included in all other appropriate locations. Correct use of the optional language is not considered a deviation from the model.

BLANKS. – There are numerous locations where information specific to your project is required to fill in a blank. All of the blanks must be filled in, except the date in the first paragraph, prior to forwarding the agreement for review. Including the information required to fill in a blank is not considered a deviation from the model.

DEFINED TERMS SHOWN IN ITALICS. – Throughout the agreement the terms defined in Article I are shown in italics. Do not remove any of the *italics* from the agreement.

NOTES:

1. FORMAT. - Remove the cover pages, notes section, all bold type references to notes, and any bold type text from the agreement prior to forwarding for review. Reminder: Do not remove any of the *italics* from the agreement.

2. SECTION 594 TERMINOLOGY. - The Section 594 program envisions a wide array of different types of projects, some of which do not fit the typical definition of construction. As a result, the terms "construction" and "construct" used throughout the agreement, may not be appropriate for all types of projects. Therefore, substitution throughout the agreement as appropriate, of "implementation" and "implement" for projects consisting of non-structural type activities or "construction and implementation" and "construct and implement" for projects that are a combination of typical construction and non-structural type activities is not considered a deviation from the model. If this change is made in one location, ensure that all other locations are similarly changed.

3. MULTIPLE SPONSORS.

A. No division of responsibilities between or among multiple sponsors in agreement. - In the event there are two or more entities serving as the sponsors for the project, and there is no division of responsibilities between or among them, the agreement can be modified to identify all the entities collectively as the "Non-Federal Sponsors". However, it should be explained to all entities that the term "Non-Federal Sponsors" is construed to hold multiple sponsors jointly and severally responsible for compliance with all agreement obligations. The changes outlined in paragraphs A.1., A.2., and C. of this note are required to identify all entities collectively as "Non-Federal Sponsors" and are not considered deviations from the model.

1. Modify first paragraph to include name of each entity serving as a sponsor. (Example: … Magoffin County Fiscal Court represented by the Magoffin County Judge and the City of Salyersville, Kentucky represented by its Mayor (hereinafter the "Non-Federal Sponsors"))

2. Change "Non-Federal Sponsor" to "Non-Federal Sponsors" throughout the agreement. There are several paragraphs where this change will require additional grammatical changes immediately following the phrase "Non-Federal Sponsors" to reflect multiple sponsors (i.e. "its" to "their" or "assumes" to "assume", etc.).

B. Division of responsibilities between or among multiple sponsors required in agreement. - While it is preferred to have only one sponsor or, when multiple sponsors are necessary, to designate them collectively as "Non-Federal Sponsors" (see paragraph A. of this note), we do recognize there are instances where there are two or more entities serving as the sponsors for the project and there is a need for a division of responsibilities between or among them in the body of the agreement (such as - one sponsor can only provide the LERR and the other sponsor performs all other responsibilities). It is important that each obligation in the agreement is reviewed and assigned to the appropriate party and that all

obligations of the agreement are addressed. We have found that modifying an agreement to address a division of responsibilities can be very cumbersome and it offers many opportunities for inadvertent omissions. Therefore, at a minimum, the division of responsibilities in the drafted agreement for your project must be coordinated with the vertical team (PDT, MSC, HQ, and, if necessary OASA(CW)) to ensure that the proposed division of obligations is acceptable and that all obligations are addressed. The changes outlined in paragraphs B.1., B.2., and C. of this note are required for multiple sponsors where such approach was documented fully in the approved decision document or otherwise was approved in writing by the HQ RIT. When so approved, such changes to address multiple sponsors are not considered deviations from the model.

1. Modify first paragraph to identify each entity separately using the identifier preferred by the sponsor (see note 5) and then collectively as the "Non-Federal Sponsors". (Example: … The State of California (hereinafter the "State"), represented by the President of The Reclamation Board, and the Sacramento Area Flood Control Agency (hereinafter "SAFCA") represented by its Chair of the Board (the State and SAFCA when referred to collectively are referred to as the "Non-Federal Sponsors"))

2. Review each occurrence of "Non-Federal Sponsor" and change it to the identifier for the sponsor that will be responsible for that obligation. If all sponsors collectively will be responsible for an obligation, then change "Non-Federal Sponsor" to "Non-Federal Sponsors". There are several paragraphs where this change will require additional grammatical changes immediately following the phrase "Non-Federal Sponsors" to reflect multiple sponsors (i.e. "its" to "their" or "assumes" to "assume", etc.).

C. The changes below are required for all agreements with multiple sponsors, regardless of whether you followed paragraph A. or B. above. These changes are not considered deviations from the model.

1. Modify title to include name of each entity serving as a sponsor.

2. On the signature page, a separate signature block will be required for each entity serving as a sponsor.

3. A separate Certificate of Authority will be required for each entity serving as a sponsor.

4. A Certification Regarding Lobbying must be signed by each signatory to the agreement.

4. GOVERNMENT REPRESENTATIVE. – Insert the title of the Government representative signing the agreement. Do not include the name, only the title. (Example: U.S. Army Engineer, Mobile District)

5. REFERENCE TO NON-FEDERAL SPONSOR. - Use "Non-Federal Sponsor", "Local Sponsor", "State", "County", "Commonwealth", "Territory" or other identifier as

preferred by the sponsor in the parenthetical phrase and consistently throughout the agreement. This change is not considered a deviation from the model. If this change is made in one location, ensure that all other locations are similarly changed.

6. NON-FEDERAL SPONSOR REPRESENTATIVE. – Insert the title of the sponsor's representative signing the agreement. Do not include the name, only the title. The title shown for the sponsor's representative should match the title shown on the signature page and should be preceded by "the" or "its", as appropriate, to match the title of the sponsor's representative. (Example: the Mayor)

7. LOCATION OF PROJECT. – Choose, Option (1) if the project in the agreement is located in Ohio or Option (2) if the project in the agreement is located in North Dakota. Delete, in its entirety, the option not used.

8. ONE OF SPONSORS IS A NON-PROFIT ENTITY. – A non-profit entity is eligible to act as sponsor as long as a legally constituted public body also will act as sponsor. Where a non-profit is one of the sponsors the agreement must have both sponsors responsible for the Hold and Save obligations (Article IX) and the legally constituted public body (alone or jointly with the non-profit entity) must be responsible for OMRR&R (Article VIII). In addition, the affected local government must consent, in writing, to the non-profit entity serving as one of the sponsors for the project before the Corps will proceed with drafting an agreement using this model. See note 3 for changes needed to accommodate multiple sponsors in an agreement.

A. Whereas clause.

1. If one of the sponsors is a non-profit entity, the Whereas clause following the reference to this note should be included in your agreement. If the Whereas clause is included in the agreement, fill in the date of the letter and the name of the affected local government that has consented to the non-profit entity serving as one of the sponsors.
The civilian format for any dates included in the agreement should be used. (Example: January 22, 2014)

2. If the sponsor is not a non-profit entity, delete the Whereas clause following the reference to this note. Deletion of this Whereas clause is not considered a deviation from the model.

B. Optional Article I.M. - Include optional Article I.M. in your agreement, if one of the sponsors is a non-profit entity. Fill in name of appropriate State (Ohio or North Dakota).

C. For each location that requires a choice between two options - Choose Option (1) if none of sponsors is not a non-profit entity or Option (2) if one of the sponsors is a non-profit entity. Delete, in its entirety, the option not used. If Option (2) is selected, then all other optional language regarding a non-profit entity serving as one of the sponsors must be selected for inclusion elsewhere in the agreement (see paragraphs A., B., and C. of this

note and note 31).

9. PRE-AGREEMENT DESIGN WORK. – Only design performed by the sponsor prior to the effective date of the agreement should be considered as pre-Agreement design work. The reasonable costs of pre-Agreement design work shall be included in total project costs which have not been included in any other agreement for the project. If the sponsor wants to include costs for pre-Agreement design work, then all language on pre-Agreement design work should be included in the agreement. For each location where optional language or an optional paragraph(s) is provided, include the optional language after the colon or the entire paragraph(s), as applicable, only if the sponsor is requesting costs for pre-Agreement design work be included in total project costs. Reminder: If optional Article I.L. is not included, reletter the remaining paragraphs in Article I and verify all previous and subsequent references to paragraphs in Article I throughout the agreement and correct, as necessary. Relettering the remaining paragraphs in Article I and correction of all references to paragraphs in Article I are not considered deviations from the model.

10. DESCRIPTION OF THE PROJECT. – The input required for the description of the project is described below.

A. Describe the project features to be undertaken pursuant to this agreement in detail sufficient to avoid any confusion over what is or is not included. If the project features to be undertaken pursuant to this agreement are an element of a countywide or statewide environmental infrastructure system, only the features to be undertaken in this agreement should be included in the description of the project. Reminder: Do not include any lands, easements, rights-of-way, (LER) or relocations requirements of the project in this description.

B. The title and date of the decision document that describes the project should be included (such as Scope of Work, Feasibility Report with Engineering Appendix, General Reevaluation Report, etc.). Also include the title of the approving official (such as Assistant Secretary of the Army (Civil Works); Chief of Engineers; Commander, _____ Division; or Commander, _____ District) and the date of approval. The civilian format for any dates included in the agreement should be used. (Example: January 22, 2014)

C. For any projects where the proposed work is reconstruction, repair, or rehabilitation of existing environmental infrastructure features, the sponsor must verify in writing if it was constructed through any other Federal program and whether OMRR&R was required and that the proposed reconstruction, repair, or rehabilitation is not normal O&M activities required for the existing environmental infrastructure features. Performance of normal O&M activities should not be considered for implementation under this authority. The letter from the sponsor should be part of the Agreement package. If the original construction of the environmental infrastructure feature was performed under a Federal program that required OMRR&R, you should consult with your MSC and your HQ RIT for guidance before proceeding any further.

11. BETTERMENTS. – A betterment is a difference in quality of an element of the project to be designed/constructed, not a difference in kind. (Example: install larger size or higher grade pipe than needed to meet Federal standards) The term "betterment" does not include any design or construction for features not included in the definition of the project as defined in the agreement.

12. LIMITATIONS ON REIMBURSEMENTS BY THE GOVERNMENT.

A. Because the definition of total project costs expressly excludes any value of LER and relocations and permit costs in excess of 25 percent of total project costs, amounts to be reimbursed to the sponsor under these paragraphs will never include any value of LER and relocations or permit costs.

B. The amount of reimbursement provided pursuant to Article II.D. in any fiscal year is subject to the applicable limitations of Section 102 of the Energy and Water Development Appropriations Act, 2006, Public Law 109-103. The amount of reimbursement made under Article II.D. or VI.C.1. together with the credits or reimbursements proposed for all other applicable programs and projects cannot exceed the total limit indicated in each fiscal year. Each district should verify with your MSC and your HQ RIT to determine if you are impacted by this limitation.

13. ARTICLE II.E. - LIMITS ON FEDERAL PARTICIPATION.

A. CONGRESSIONAL ADD PARAGRAPH – Article II.E.1. - The dollar amount to be included in the first blank should the amount of Federal funds that have been appropriated for the Section 594 Program for the applicable state, minus any rescissions and reductions for savings and slippages, as of the effective date of the agreement. The dollar amount to be included in the second blank should be that portion of available Section 594 Program funds for the applicable state that the district is projecting to be available for the project in this agreement, as of the effective date of the agreement. The district, through the Project Coordination Team (Article V), must work closely with each sponsor to plan execution of the project so that useful portions can be constructed as funds are made available. The sum of the amount of Federal funds made available for all the Section 594 agreements in the applicable state, including this one, plus the sum of Federal funds made available for overall management of the Section 594 Program in the applicable state, cannot exceed the amount of Federal funds that have been appropriated for the Section 594 Program for the applicable state, minus any rescissions and reductions for savings and slippages, as of the effective date of the agreement, nor can it exceed the current Section 594 Program Limit for the applicable state, unless Congress has authorized an increase in the limit in Act language.

B. SECTION 594 PROGRAM LIMIT – Article II.E.3. - The Government will not issue work allowances for projects undertaken in either state pursuant to the Section 594 Program beyond the amount authorized to be appropriated in Section 594 for that state, currently $240,000,000 for Ohio and $100,000,000 for North Dakota.

C. SUSPENSION OF GOVERNMENT PERFORMANCE – Article XIII.B. and Article XIII.C. - If the Government suspends its future performance responsibilities, including reimbursement, under the agreement pursuant to Article II.E.2. or Article XIV.C., the sponsor, at its sole discretion, may continue work on the project. However the sponsor should understand that if they continue to work on the project during the period of suspension of the Government's performance responsibilities, such work performed must comply with the conditions of Article II.C. of the agreement to be eligible for inclusion in total project costs and any reimbursement of the Federal share of such work once the Government has resumed its performance responsibilities. If the Section 102 Limit compels the Government to suspend reimbursement, but funds are otherwise available, the Government's performance of its other obligations will not be suspended.

14. COMPLETED PORTION OF THE PROJECT. – Because Section 594 authorizes the provision of design and construction assistance, the concept of functional portions of the project has been deleted. The district should use its best judgment to determine when construction of a portion of the project is complete so that the sponsor can commence its operation and maintenance responsibility.

15. ARTICLE II.L. - ADDITIONAL WORK. - The Government should not accept any requests for 1) acquisition of LER necessary for betterments, 2) performance of relocations necessary for betterments, or 3) obtaining permits necessary for the project.

16. ADDITIONAL ITEMS OF COOPERATION. - Include any additional paragraphs in the agreement necessary to reflect special requirements of non-Federal cooperation specified in the decision document upon which the agreement is based. Carefully review the items of cooperation in the decision document to ensure that all items of cooperation are covered in the agreement. When including any additional items of cooperation in the agreement, name the responsible party then include the item of cooperation contained in the decision document. (Example: The Non-Federal Sponsor shall …) Including the additional items of cooperation in the agreement is not considered a deviation from the model unless additional language is required elsewhere in the agreement to further address the added item of cooperation.

17. GUIDANCE ON APPRAISALS. - See Chapter 12 of ER 405-1-12 for guidance on applicable rules including use of Federal versus State rules in preparing an appraisal.

18. ARTICLE VI.A. – BREAKDOWN OF PROJECT COSTS.

A. The costs shown in Article VI.A.1. should be the current estimate of the costs at current price levels and inflated through the estimated mid-point of construction.

B. To determine the reimbursement of the Federal share due to the sponsor in accordance with II.D.: Step (1) determine the Government's share of total project costs; Step (2) subtract from the Government's share of total project costs the amount of total project costs to be incurred by the Government; the difference is the reimbursement of the Federal share due to the sponsor that should be shown in the sixth blank in Article VI.A.1.

Example:
total project costs = $2,000,000
total project costs to be incurred by the Government = $75,000
total project costs to be incurred by the sponsor = $1,925,000
Step 1 - ($2,000,000 x .75) = $1,500,000 - Government's share of total project costs
Step 2 - $1,500,000 – $75,000 = $1,425,000 – reimbursement due to sponsor

C. The blank in Article VI.A.2. should be filled in with the date (month day, year) of the first quarterly report of costs to be provided to the sponsor.

19. ARTICLE VI.C. - FINAL ACCOUNTING.

A. When a final accounting cannot be conducted in a timely manner because of outstanding claims and appeals or eminent domain proceedings, an interim accounting should be conducted. The district should use its best judgment in determining whether to conduct an interim accounting or wait for final resolution of outstanding claims and appeals or eminent domain proceedings.

B. Nothing in the agreement, prevents any interim accountings from being conducted prior to the end of the period of design and construction.

20. TIMING OF FIRST REQUEST FOR SPONSOR'S FUNDS. – Insert the number of days (should be 60 or more). The last sentence of this paragraph states that the sponsor is required to provide the requested funds no later than 30 calendar days prior to the Government incurring any financial obligations for additional work. Therefore any number less than 60 will give the sponsor less than 30 days notice prior to when the funds must be provided to the Government.

21. LENGTH OF TIME TO PROVIDE ADDITIONAL FUNDS. – Insert the number of days. The period of time should not exceed the time shown unless the District Engineer approves a longer period of time after determining that the longer period of time will not result in delays to the project (including contract modifications) or the Government using its funds to meet a shortfall in the sponsor's funds. The district must determine the need for additional funds from the sponsor far enough ahead of time to permit the sponsor full use of the specified period of time. Neither party's funds should be used to meet any shortfall in the other party's funds.

22. INSPECTION OF COMPLETED WORKS. – Due to the wide variety of potential projects to be undertaken in the future pursuant to this authority, the district may want to inspect some completed projects during the O&M phase. While this inspection is not mandatory, the decision to perform any inspection should be based on the specifics of the project. Reminder: Article VIII.B. is not an optional paragraph. It must be included in all agreements regardless of the level of inspections proposed to be performed.

23. ARTICLE IX – HOLD AND SAVE. - Include the optional language after the colon only if optional Article XIX - Obligations of Future Appropriations (see note 27) is

included in the agreement and the sponsor requests this optional language be added to Article IX of the agreement. In addition, if this language is included, delete the "The". Reminder: The entire article is not optional as only the phrase shown in the brackets is optional.

24. ARTICLE XIV - HAZARDOUS SUBSTANCES. – In accordance with paragraph A. of this Article, the sponsor is to perform or ensure performance of investigations to identify the existence and extent of any hazardous substances regulated under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) on lands, easements, and rights-of-way necessary for the project. It is Army policy that the sponsor either perform these investigations in-house or contract for their performance with a third party. The Government should not perform these investigations on behalf of the sponsor. However, as stated in this article, the Government performs, or instructs the sponsor to perform investigations required on lands, easements, and rights-of-way that are subject to navigation servitude. For additional explanation, refer to ER 1165-2-132.

25. ARTICLE XV - NOTICES. – Insert the full address of the sponsor and Government - including titles or office title/symbol of individuals to receive the notices. Do not include the name of the individual to receive the notices as it may change throughout the life of the agreement.

26. ARTICLE XVIII – THIRD PARTY RIGHTS, BENEFITS, OR LIABILITIES. – Article XVIII is optional and can be deleted if requested by the sponsor. If the article is deleted, renumber the remaining articles in the agreement and verify the references throughout the agreement to the remaining articles. In particular, if the article addressing Obligations of Future Appropriations is included in the agreement, and the sponsor requests the optional language in Article IX (see note 23) verify the reference contained in Article IX to the article addressing Obligations of Future Appropriations and correct, as necessary. Renumbering the remaining articles in the agreement and correction of all references to the remaining articles are not considered a deviation from the model.

27. ARTICLE XIX – OBLIGATIONS OF FUTURE APPROPRIATIONS. - Reminder: Use of this article is limited to a sponsor that is a State agency or a political subdivision of the State. It cannot be used by a non-profit entity.

A. Include optional Article XIX in the agreement only if the sponsor requests this language and only after your District Counsel determines, in writing after review of information supporting the request from the sponsor, that the sponsor is a State agency or a political subdivision of the State that derives its funds for the project directly from appropriations and the sponsor has constitutional or statutory limitations prohibiting it from committing future appropriations.

B. The information to be added in the first three blanks in Article XIX.A. should identify the body that makes the appropriations. (Example: Legislature of the State of Ohio or City Counsel of the City of Cleveland)

C. The information to be included in the 4th – 6th blanks must provide more detailed information on the location of the obligation of future appropriations restriction. (Example: Section 7 of the City Charter of the City of Cleveland)

28. SPONSOR'S BUDGET CYCLE. - Choose Option (1) if the sponsor has a 1 year budget cycle or Option (2) if the sponsor has a 2 year budget cycle.

29. ARTICLE XX – TRIBAL SOVEREIGN IMMUNITY. – Include optional Article XX only if the sponsor is a Native American Tribe. The information to be included in the first and third blanks should be the name of the instrument (resolution, ordinance, etc) where the sponsor has waived sovereign immunity. The information to be included in the fourth blank should be the title of the sponsor's representative (see note 6).

30. TITLE OF GOVERNMENT REPRESENTATIVE. – Insert the title of the Government representative signing the agreement. Do not include the name, only the title. If the signature authority is delegated to the district, the phrase "District Engineer" should be used in this location. If the signature authority is not delegated, the title shown should match the title of the Government representative shown in the first paragraph (see note 4).

31. CERTIFICATE OF AUTHORITY.

A. Use Option (1) if the sponsor is not a non-profit entity. Use Option (2) if the sponsor is a non-profit entity. Delete Option (2) if it is not needed. If both are needed, each Certificate of Authority should be on a separate page. In addition, if Option (2) is selected, then all other optional language addressing a non-profit entity must be selected for inclusion elsewhere in the agreement (see note 8).

B. The attorney signing the Certificate of Authority cannot be the signatory to the agreement. The attorney signing the Certificate of Authority is certifying that the signatory to the agreement has the authority to obligate the sponsor. Do not forget to fill in the name in the first line prior to execution of the agreement.

32. PREPARING AGREEMENT FOR SIGNATURE.

A. When printing the agreement for execution: 1) remove the cover page, notes section, bold type references to notes, and any bold type text from the agreement; 2) ensure that the appropriate information has been included in all blanks in the agreement and the Certificate of Authority; 3) ensure that titles of articles are not the last thing at the bottom of the page; and 4) ensure that there are no page breaks which allow half empty pages. Reminder: Do not remove any of the *italics* from the agreement.

B. If the signature authority has been delegated to the District Engineer: 1) the title of the Government representative in the first paragraph (see note 4) should be "U.S. Army Engineer, _____ District"; 2) the title of the Government representative in the last paragraph (see note 30) should be "District Engineer"; and 3) since this is a civilian document use the civilian version of the District Engineer's signature block.

C. If the signature authority is not delegated, the title in the first paragraph (see note 4) and last paragraph should match the title of the Government representative shown in the signature block.

D. Before signature by the Government representative, ensure that the sponsor signs and dates a minimum of four copies of the agreement, and Certification Regarding Lobbying, and that the Certificates of Authority are signed and dated by the appropriate people. The date on the first page should be filled in by the Government representative signing the agreement, not the sponsor.

E. The Government should retain two fully executed copies of the agreement. All other copies should be provided to the sponsor. A photocopy or a pdf file (as determined by the MSC and the appropriate HQ RIT) of the fully executed agreement should be provided to the MSC and to the appropriate HQ RIT within 7 days after execution of the agreement.

1. The Non-Federal Sponsor shall require all contractors to whom it awards design contracts to provide 30 percent and 100 percent design information to enable in-progress review of the design. The Government may participate in the review of the design at each stage of completion and may provide technical assistance to the Non-Federal Sponsor on an as-needed basis until the end of the *period of design and construction*. The Government shall perform a final review to verify that the design is complete and is necessary for the *Project*. Upon completion of design, the Non-Federal Sponsor shall furnish the District Engineer with copies of the completed design.

2. Using information developed by the Non-Federal Sponsor, the Government shall develop and coordinate as required, an Environmental Assessment and Finding of No Significant Impact or an Environmental Impact Statement and Record of Decision, as necessary, to inform the public regarding the environmental impacts of the *Project* in accordance with the

To the extent possible, the Non-Federal Sponsor shall afford the Government the opportunity to review and comment on all proposed contract modifications, including change orders. In any instance where providing the Government with notification of a contract modification is not possible prior to execution of the contract modification, the Non-Federal Sponsor shall provide such notification in writing at the earliest date possible. To the extent possible, the Non-Federal Sponsor also shall afford the Government the opportunity to review and comment on all contract claims prior to resolution thereof. The Non-Federal Sponsor shall consider in good faith the comments of the Government, but the contents of solicitations, award of contracts or commencement of design or construction using the Non-Federal Sponsor's own forces, execution of contract modifications, resolution of contract claims, and performance of all work on the *Project* shall be exclusively within the control of the Non-Federal Sponsor.

Notwithstanding any other provision of this Agreement, inclusion of costs for construction in *total project costs* may be withheld, in whole or in part, as a result of the Non-Federal Sponsor's failure to comply with its obligations under these laws.

5. The Non-Federal Sponsor's costs for design and construction that may be eligible for inclusion in *total project costs* pursuant to this Agreement are not subject to interest charges, nor are they subject to adjustment to reflect changes in price levels between the time the work is completed and the time the costs are included in *total project costs*.

6. The Government shall not include in *total project costs* any costs paid by the Non-Federal Sponsor using *Federal program funds* unless the Federal agency providing the funds verifies in writing that such funds are authorized to carry out the *Project*.

[SEE NOTE - 12]

The Government shall reimburse the Non-Federal Sponsor, in accordance with Article VI.B. of this Agreement, the amount necessary so that the Federal contribution towards *total project costs* equals 75 percent; however, any reimbursement by the Government is subject to the availability of funds and is limited by the **[SEE NOTE - 7 - CHOOSE: (1)** *Section 594 Program Limit for Ohio*. **(2)** *Section 594 Program Limit for North Dakota*.**]**

[SEE NOTE - 13]

E. Notwithstanding any other provision of this Agreement, Federal financial participation in the *Project* is limited by the following provisions of this paragraph.

1. As of the effective date of this Agreement, $_____ of Federal funds have been provided by the Congress of the United States (hereinafter the "Congress") for the Section 594 Program in **[SEE NOTE - 7 - CHOOSE: (1)** Ohio **(2)** North Dakota**]** of which $_____ is currently projected to be available for the *Project*. The Government makes no commitment to request Congress to provide additional Federal funds for the Section 594 Program in **[SEE NOTE - 7 - CHOOSE: (1)** Ohio **(2)** North Dakota**]** or the *Project*. Further, the Government's financial participation in the *Project* is limited to the Federal funds that the Government makes available to the *Project*.

2. In the event the Government projects that the amount of Federal funds the Government will make available to the *Project* through the then-current *fiscal year*, or the amount of Federal funds the Government will make available for the *Project* through the upcoming *fiscal year*, is not sufficient to meet the Federal share of *total project costs* and the Federal share of costs for data recovery activities associated with historic preservation in accordance with Article XVII.D. and Article XVII.E. of this Agreement that the Government projects will be incurred through the then-current or upcoming *fiscal year*, as applicable, the Government shall notify the Non-Federal Sponsor in writing of such insufficiency of funds and of the date the Government projects that the Federal funds that will have been made available to the *Project* will be exhausted. Upon the exhaustion of Federal funds made available by the Government to the *Project*, the Government's future performance under this Agreement shall be suspended and the parties shall proceed in accordance with Article XIII.B. of this Agreement. However, if the Government cannot make available sufficient Federal funds to meet the Federal share of *total project costs* in the then-current *fiscal year* solely due to the *Section 102 Limit*, only the Government's future performance related to reimbursement pursuant to paragraph D. of this Article shall be suspended.

3. If the Government determines that the total amount of Federal funds provided by Congress for the Section 594 Program in **[SEE NOTE - 7 - CHOOSE: (1)** Ohio **(2)** North Dakota**]** has reached the **[SEE NOTE - 7 - CHOOSE: (1)** *Section 594 Program Limit for Ohio*, **(2)** *Section 594 Program Limit for North Dakota*,**]** and the Government projects that the Federal funds the Government will make available to the *Project* within the **[SEE NOTE - 7 - CHOOSE: (1)** *Section 594 Program Limit for Ohio* **(2)** *Section 594 Program Limit for North Dakota***]** will not be sufficient to meet the Federal share of *total project costs* and the Federal

share of costs for data recovery activities associated with historic preservation in accordance with Article XVII.D. and Article XVII.E. of this Agreement, the Government shall notify the Non-Federal Sponsor in writing of such insufficiency of funds and of the date the Government projects that the Federal funds that will have been made available to the *Project* will be exhausted. Upon the exhaustion of Federal funds made available by the Government to the *Project* within the **[SEE NOTE - 7 - CHOOSE: (1)** *Section 594 Program Limit for Ohio*, **(2)** *Section 594 Program Limit for North Dakota*,**]** the parties shall terminate this Agreement and proceed in accordance with Article XIII of this Agreement.

F. During the *period of design and construction*, the Non-Federal Sponsor shall prepare and furnish to the Government for review a proposed Operation, Maintenance, Repair, Rehabilitation and Replacement Manual (hereinafter the "OMRR&R Manual"). The failure of the Non-Federal Sponsor to prepare an OMRR&R Manual acceptable to the Government shall not relieve the Non-Federal Sponsor of its responsibilities for operation, maintenance, repair, rehabilitation, and replacement of the entire completed *Project*, or any completed portion thereof as the case may be, in accordance with the provisions of this Agreement.

[SEE NOTE - 14]

G. Upon completion of construction and final inspection by the Government in accordance with paragraph A.6. of this Article, the Non-Federal Sponsor shall operate, maintain, repair, rehabilitate, and replace the entire *Project*, or a completed portion thereof as the case may be, in accordance with Article VIII of this Agreement. Further, after completion of all contracts for the *Project*, copies of all of the Non-Federal Sponsor's Written Notices of Acceptance of Completed Work for all contracts for the *Project* that have not been provided previously shall be provided to the Government.

H. Upon conclusion of the *period of design and construction*, the Government shall conduct an accounting, in accordance with Article VI.C. of this Agreement, and furnish the results to the Non-Federal Sponsor.

I. The Non-Federal Sponsor and the Government, in consultation with appropriate Federal and State officials, shall develop a facilities development plan or resource protection plan. Such plan shall include necessary design, completion of all necessary environmental coordination and documentation, preparation of appropriate plans and specifications, preparation of an OMRR&R Manual, and any other matters related to design and construction of the *Project* in accordance with this Agreement.

J. The Non-Federal Sponsor shall identify, establish, and maintain such legal and institutional structures as are necessary to ensure the effective long-term operation of the *Project*. The Non-Federal Sponsor shall provide to the Government a written description of such legal and institutional structures and such descriptions shall be included in the OMRR&R Manual prepared by the Non-Federal Sponsor. The Non-Federal Sponsor's costs of identification of such legal and institutional structures shall be included in *total project costs* and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs. The

Government shall have no obligation under this Agreement for any costs of establishment and maintenance of such legal and institutional structures.

K. The Non-Federal Sponsor shall not use *Federal program funds* to meet any of its obligations for the *Project* under this Agreement unless the Federal agency providing the funds verifies in writing that such funds are authorized to carry out the *Project*.

[SEE NOTE - 15]

L. The Non-Federal Sponsor may request the Government to acquire lands, easements, or rights-of-way or to perform *relocations* for the *Project* on behalf of the Non-Federal Sponsor. Such requests shall be in writing and shall describe the services requested to be performed or provided. If in its sole discretion the Government elects to perform or provide the requested services or any portion thereof, it shall so notify the Non-Federal Sponsor in a writing that sets forth any applicable terms and conditions, which must be consistent with this Agreement. In the event of conflict between such a writing and this Agreement, this Agreement shall control. The Non-Federal Sponsor shall be solely responsible for all costs of the services performed or provided by the Government under this paragraph and shall pay all such costs in accordance with Article VI.D. of this Agreement. Notwithstanding the acquisition of lands, easements, or rights-of-way or performance of *relocations* by the Government, the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for any costs of cleanup and response in accordance with Article XIV.C. of this Agreement.

M. In the event that the Non-Federal Sponsor elects to include *betterments* in the design or construction of the *Project* during the *period of design and construction*, the Non-Federal Sponsor shall notify the Government in writing and describe the *betterments* it intends to design and construct. The Non-Federal Sponsor shall be solely responsible for all costs due to *betterments*, including costs associated with obtaining permits therefor, and shall pay all such costs without reimbursement by the Government.

[SEE NOTE - 9]

N. The Government shall determine and include in *total project costs* the reasonable costs incurred by the Non-Federal Sponsor for *pre-Agreement design work*, subject to the conditions and limitations of this paragraph, that have not been incurred pursuant to any other agreement for the *Project*. The Non-Federal Sponsor in a timely manner shall provide the Government with such documents as are sufficient to enable the Government to determine the amount of costs to be included in *total project costs* for *pre-Agreement design work*.

1. *Pre-Agreement design work* shall be subject to a review by the Government to verify that the work was accomplished in a satisfactory manner and is necessary for the *Project*.

2. Where the Non-Federal Sponsor's cost for completed *pre-Agreement design work* is expressed as fixed costs plus a percentage of construction costs, the Non-Federal Sponsor shall renegotiate such costs with its Architect-Engineer based on actual costs.

3. The Non-Federal Sponsor's costs for *pre-Agreement design work* that may be eligible for inclusion in *total project costs* shall be subject to an audit in accordance with Article X.C. of this Agreement to determine the reasonableness, allocability, and allowability of such costs.

4. The Non-Federal Sponsor's costs for *pre-Agreement design work* that may be eligible for inclusion in *total project costs* pursuant to this paragraph are not subject to interest charges, nor are they subject to adjustment to reflect changes in price levels between the time the *pre-Agreement design work* was completed and the time the costs are included in *total project costs*.

5. The Government shall not include in *total project costs* any costs for *pre-Agreement design work* paid by the Non-Federal Sponsor using *Federal program funds* unless the Federal agency providing the funds verifies in writing that such funds are authorized to carry out the *Project*.

Upon reaching such determination, the Government shall provide written confirmation to the Non-Federal Sponsor thereof including a description of the lands, easements, and rights-of-way jointly determined to be required. B. The Non-Federal Sponsor and the Government jointly shall determine the *relocations* necessary for construction, operation, and maintenance of the *Project*, including those necessary to enable the borrowing of material or the disposal of dredged or excavated material. Upon reaching such determination, the Government shall provide written confirmation to the Non-

Federal Sponsor thereof including a description of the *relocations* jointly determined to be necessary. Prior to the issuance of the solicitation for each contract for construction of the *Project*, or prior to the Non-Federal Sponsor incurring any financial obligations for construction of a portion of the *Project* using the Non-Federal Sponsor's own forces, the Non-Federal Sponsor shall prepare or ensure the preparation of plans and specifications for, and perform or ensure the performance of, all *relocations* the Non-Federal Sponsor and the Government jointly determine to be necessary for that work and certify in writing to the Government that said work has been performed. Furthermore, prior to the end of the *period of design and construction*, the Non-Federal Sponsor shall perform or ensure performance of all *relocations* necessary for construction, operation, and maintenance of the *Project*.

C. The Non-Federal Sponsor shall comply with the applicable provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91-646, as amended (42 U.S.C. 4601-4655), and the Uniform Regulations contained in 49 C.F.R. A. The Government shall include in *total project costs* the value of the lands, easements, and rights-of-way that the Non-Federal Sponsor and the Government jointly determine must be provided by the Non-Federal Sponsor pursuant to Article III.A. of this Agreement and the value of the *relocations* that the Non-Federal Sponsor and the Government jointly determine must be performed by the Non-Federal Sponsor or for which it must ensure performance pursuant to Article III.B. of this Agreement. The Government also shall include in *total project costs* the costs incurred by the Non-Federal Sponsor that are associated with obtaining permits pursuant to Article II.B. of this Agreement that are necessary for placement of the *Project* on publicly owned or controlled lands. However, the Government shall not include in *total project costs* the value of any lands, easements, rights-of-way, or *relocations* that have been provided previously as an item of cooperation for another Federal project. Further, the Government shall not include in *total project costs* the value of lands, easements, rights-of-way, or *relocations* that were acquired or performed using *Federal program funds* or the costs of obtaining permits paid using *Federal program funds* unless the Federal agency providing the funds verifies in writing that such funds are authorized to carry out the *Project*. Finally, no value or costs of such items shall be included in *total project costs* pursuant to this Article, and no reimbursement shall be provided to the Non-Federal Sponsor, for any value or costs in excess of 25 percent of *total project costs*.

B. The Non-Federal Sponsor in a timely manner shall provide the Government with such documents as are sufficient to enable the Government to determine the value of any contribution provided pursuant to Article III.A. or Article III.B. of this Agreement and to determine the costs incurred by the Non-Federal Sponsor that are associated with obtaining permits pursuant to Article II.B. of this Agreement. Upon receipt of such documents, the Government in a timely

manner shall determine the value of such contributions and the costs for obtaining such permits and include in *total project costs* the amount of such value and costs that does not exceed 25 percent of *total project costs*.

C. For the sole purpose of determining the value to be included in *total project costs* in accordance with this Agreement and except as otherwise provided in paragraph E. of this Article, the value of lands, easements, and rights-of-way, including those required for *relocations*, the borrowing of material, and the disposal of dredged or excavated material, shall be the fair market value of the real property interests, plus certain incidental costs of acquiring those interests, as determined in accordance with the provisions of this paragraph.

1. Date of Valuation.

a. The fair market value of lands, easements, or rights-of-way owned by the Non-Federal Sponsor on the effective date of this Agreement shall be the fair market value of such real property interests as of the date the Non-Federal Sponsor awards the first construction contract for the *Project*, or, if the Non-Federal Sponsor performs the construction using its own forces, the date that the Non-Federal Sponsor begins construction of the *Project*.

b. The fair market value of lands, easements, or rights-of-way acquired by the Non-Federal Sponsor after the effective date of this Agreement shall be the fair market value of such real property interests at the time the interests are acquired.

2. General Valuation Procedure. Except as provided in paragraph C.3. or paragraph C.5. of this Article, the fair market value of lands, easements, or rights-of-way shall be determined in accordance with the provisions of this paragraph.

a. The Non-Federal Sponsor shall obtain, for each real property interest, an appraisal that is prepared by a qualified appraiser who is acceptable to the Non-Federal Sponsor and the Government. The Non-Federal Sponsor shall provide a copy of each appraisal to the Government. The appraisal must be prepared in accordance with the applicable rules of just compensation, as specified by the Government. **[SEE NOTE - 17]** The fair market value shall be the amount set forth in the Non-Federal Sponsor's appraisal, if such appraisal is approved by the Government. In the event the Government does not approve the Non-Federal Sponsor's appraisal, the Non-Federal Sponsor may obtain a second appraisal, and the fair market value shall be the amount set forth in the Non-Federal Sponsor's second appraisal, if such appraisal is approved by the Government. In the event the Government does not approve the Non-Federal Sponsor's second appraisal, the Non-Federal Sponsor chooses not to obtain a second appraisal, or the Non-Federal Sponsor does not provide the first appraisal as required in this paragraph, the Government shall obtain an appraisal, and the fair market value shall be the amount set forth in the Government's appraisal, if such appraisal is approved by the Non-Federal Sponsor. In the event the Non-Federal Sponsor does not approve the Government's appraisal, the Government, after consultation with the Non-Federal Sponsor, shall consider the Government's and the Non-Federal Sponsor's appraisals and determine an amount based thereon, which shall be deemed to be the fair market value.

b. Where the amount paid or proposed to be paid by the Non-Federal Sponsor for the real property interest exceeds the amount determined pursuant to paragraph C.2.a. of this Article, the Government, at the request of the Non-Federal Sponsor, shall consider all factors relevant to determining fair market value and, in its sole discretion, after consultation with the Non-Federal Sponsor, may approve in writing an amount greater than the amount determined pursuant to paragraph C.2.a. of this Article, but not to exceed the amount actually paid or proposed to be paid. If the Government approves such an amount, the fair market value shall be the lesser of the approved amount or the amount paid by the Non-Federal Sponsor, but no less than the amount determined pursuant to paragraph C.2.a. of this Article.

3. Eminent Domain Valuation Procedure. For lands, easements, or rights-of-way acquired by eminent domain proceedings instituted after the effective date of this Agreement, the Non-Federal Sponsor, prior to instituting such proceedings, shall submit to the Government notification in writing of its intent to institute such proceedings and an appraisal of the specific real property interests to be acquired in such proceedings. The Government shall have 60 calendar days after receipt of such a notice and appraisal within which to review the appraisal, if not previously approved by the Government in writing.

a. If the Government previously has approved the appraisal in writing, or if the Government provides written approval of, or takes no action on, the appraisal within such 60 day period, the Non-Federal Sponsor shall use the amount set forth in such appraisal as the estimate of just compensation for the purpose of instituting the eminent domain proceeding.

b. If the Government provides written disapproval of the appraisal, including the reasons for disapproval, within such 60 day period, the Government and the Non-Federal Sponsor shall consult in good faith to promptly resolve the issues or areas of disagreement that are identified in the Government's written disapproval. If, after such good faith consultation, the Government and the Non-Federal Sponsor agree as to an appropriate amount, then the Non-Federal Sponsor shall use that amount as the estimate of just compensation for the purpose of instituting the eminent domain proceeding. If, after such good faith consultation, the Government and the Non-Federal Sponsor cannot agree as to an appropriate amount, then the Non-Federal Sponsor may use the amount set forth in its appraisal as the estimate of just compensation for the purpose of instituting the eminent domain proceeding.

c. For lands, easements, or rights-of-way acquired by eminent domain proceedings instituted in accordance with paragraph C.3. of this Article, fair market value shall be either the amount of the court award for the real property interests taken, to the extent the Non-Federal Sponsor and the Government jointly determined such interests are required for construction, operation, and maintenance of the *Project*, or the amount of any stipulated settlement or portion thereof that the Government approves in writing.

4. Incidental Costs. For lands, easements, or rights-of-way acquired by the Non-Federal Sponsor within a five year period preceding the effective date of this Agreement, or at any time after the effective date of this Agreement, the value of the interest shall include the

documented incidental costs of acquiring the interest, as determined by the Government, subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs. Such incidental costs shall include, but not necessarily be limited to, closing and title costs, appraisal costs, survey costs, attorney's fees, plat maps, mapping costs, actual amounts expended for payment of any relocation assistance benefits provided in accordance with Article III.C. of this Agreement, and other payments by the Non-Federal Sponsor for items that are generally recognized as compensable, and required to be paid, by applicable state law due to the acquisition of a real property interest in accordance with Article III of this Agreement. The value of the interests provided by the Non-Federal Sponsor in accordance with Article III.A. of this Agreement also shall include the documented costs of obtaining appraisals prepared for review by the Government pursuant to paragraph C.2.a. of this Article subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs.

5. Waiver of Appraisal. Except as required by paragraph C.3. of this Article, the Government may waive the requirement for an appraisal pursuant to this paragraph if it determines that an appraisal is unnecessary because the valuation is uncomplicated and that the estimated fair market value of the real property interest is $10,000 or less based upon a review of available data. In such event, the Government and the Non-Federal Sponsor must agree in writing to the value of such real property interest in an amount not in excess of $10,000.

D. After consultation with the Non-Federal Sponsor, the Government shall determine the value of *relocations* in accordance with the provisions of this paragraph.

1. For a *relocation* other than a *highway*, the value shall be only that portion of *relocation* costs that the Government determines is necessary to provide a functionally equivalent facility, reduced by depreciation, as applicable, and by the salvage value of any removed items.

2. For a *relocation* of a *highway*, the value shall be only that portion of *relocation* costs that would be necessary to accomplish the *relocation* in accordance with the design standard that the State of **[SEE NOTE - 7 - CHOOSE: (1)** Ohio **(2)** North Dakota**]** would apply under similar conditions of geography and traffic load, reduced by the salvage value of any removed items.

3. *Relocation* costs shall include, but not necessarily be limited to, actual costs of performing the *relocation*; planning, engineering and design costs; supervision and administration costs; and documented incidental costs associated with performance of the *relocation*, as determined by the Government. *Relocation* costs shall not include any costs due to *betterments*, as determined by the Government, nor any additional cost of using new material when suitable used material is available. *Relocation* costs shall be subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of costs.

4. The value to be included in *total project costs* for *relocations* performed within the *Project* boundaries is subject to satisfactory compliance with applicable Federal labor laws

covering non-Federal construction, including, but not limited to, 40 U.S.C. 3141-3148 and 40 U.S.C. 3701-3708 (revising, codifying and enacting without substantive change the provisions of the Davis-Bacon Act (formerly 40 U.S.C. 276a *et seq*.), the Contract Work Hours and Safety Standards Act (formerly 40 U.S.C. 327 *et seq*.), and the Copeland Anti-Kickback Act (formerly 40 U.S.C. 276c)). Notwithstanding any other provision of this Agreement, inclusion of the value of *relocations* in *total project costs* may be denied, in whole or in part, as a result of the Non-Federal Sponsor's failure to comply with its obligations under these laws.

E. Where the Government, on behalf of the Non-Federal Sponsor pursuant to Article II.L. of this Agreement, acquires lands, easements, or rights-of-way or performs *relocations*, the value to be included in *total project costs* in accordance with this Agreement shall be the costs of such work performed or provided by the Government that are paid by the Non-Federal Sponsor in accordance with Article VI.D. of this Agreement. In addition, the value to be included in *total project costs* in accordance with this Agreement shall include the documented costs incurred by the Non-Federal Sponsor in accordance with the terms and conditions agreed upon in writing pursuant to Article II.L. of this Agreement subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs.

F. The Government shall include in *total project costs* the costs incurred by the Non-Federal Sponsor pursuant to Article II.B. of this Agreement that are associated with obtaining permits necessary for placement of the *Project* on publicly owned or controlled lands, subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs.

ARTICLE V - PROJECT COORDINATION TEAM

A. To provide for consistent and effective communication, the Non-Federal Sponsor and the Government, not later than 30 calendar days after the effective date of this Agreement, shall appoint named senior representatives to a Project Coordination Team. Thereafter, the Project Coordination Team shall meet regularly until the end of the *period of design and construction*. The Government's Project Manager and a counterpart named by the Non-Federal Sponsor shall co-chair the Project Coordination Team.

B. The Government's Project Manager and the Non-Federal Sponsor's counterpart shall keep the Project Coordination Team informed of the progress of design and construction and of significant pending issues and actions, and shall seek the views of the Project Coordination Team on matters that the Project Coordination Team generally oversees.

C. Until the end of the *period of design and construction*, the Project Coordination Team shall generally oversee the *Project*, including matters related to: design; completion of all necessary environmental coordination and documentation; plans and specifications; scheduling; real property and *relocation* requirements; real property acquisition; contract awards and modifications; contract costs; the application of and compliance with 40 U.S.C. 3141-3148 and 40 U.S.C. 3701-3708 (revising, codifying and enacting without substantive change the

provisions of the Davis-Bacon Act (formerly 40 U.S.C. 276a *et seq*.), the Contract Work Hours and Safety Standards Act (formerly 40 U.S.C. 327 *et seq*.), and the Copeland Anti-Kickback Act (formerly 40 U.S.C. 276c)) for *relocations* and the construction portion of the *Project*; the investigations to identify the existence and extent of hazardous substances in accordance with Article XIV.A. of this Agreement; historic preservation activities in accordance with Article XVII of this Agreement; the Government's cost projections for the *Project*; final inspection of the entire *Project* or completed portions thereof as the case may be; preparation of the proposed OMRR&R Manual; anticipated requirements and needed capabilities for performance of operation, maintenance, repair, rehabilitation, and replacement of the *Project* including issuance of permits; and other matters related to the *Project*. This oversight of the *Project* shall be consistent with a project management plan developed by the Government and the Non-Federal Sponsor.

D. The Project Coordination Team may make recommendations to the Non-Federal Sponsor on matters related to the *Project* that the Project Coordination Team generally oversees, including suggestions to avoid potential sources of dispute. The Non-Federal Sponsor in good faith shall consider the recommendations of the Project Coordination Team. The Non-Federal Sponsor, having the legal authority and responsibility for design and construction of the *Project*, has the discretion to accept or reject, in whole or in part, the Project Coordination Team's recommendations except as otherwise required by the provisions of this Agreement, including compliance with applicable Federal, State, or local laws or regulations.

E. The Non-Federal Sponsor's costs of participation in the Project Coordination Team shall be included in *total project costs* and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs. The Government's costs of participation in the Project Coordination Team shall be included in *total project costs* and shared in accordance with the provisions of this Agreement.

B. The Government, subject to the availability of funds, shall reimburse the Non-Federal Sponsor, in accordance with the provisions of this paragraph, the amount required pursuant to Article II.D. of this Agreement.

4. If the payment amount is not paid by the end of the payment period, the designated payment office shall credit to the Non-Federal Sponsor's account an interest penalty on the payment amount, without request from the Non-Federal Sponsor. [SEE NOTE - 19]

C. Upon conclusion of the *period of design and construction* and resolution of all relevant claims and appeals and eminent domain proceedings, the Government shall conduct a final accounting and furnish the Non-Federal Sponsor with written notice of the results of such final

accounting. If outstanding relevant claims and appeals or eminent domain proceedings prevent a final accounting from being conducted in a timely manner, the Government shall conduct an interim accounting and furnish the Non-Federal Sponsor with written notice of the results of such interim accounting. Once all outstanding relevant claims and appeals and eminent domain proceedings are resolved, the Government shall amend the interim accounting to complete the final accounting and furnish the Non-Federal Sponsor with written notice of the results of such final accounting. The interim or final accounting, as applicable, shall determine *total project costs* and the costs of any data recovery activities associated with historic preservation. In addition, for each set of costs, the interim or final accounting, as applicable, shall determine each party's required share thereof, and each party's total contributions thereto as of the date of such accounting.

1. Should the interim or final accounting, as applicable, show that the Government's total required shares of *total project costs* and the costs of any data recovery activities associated with historic preservation exceed the Government's total contributions provided thereto, the Government, no later than 90 calendar days after completion of the interim or final accounting, as applicable, shall make a payment to the Non-Federal Sponsor, subject to the availability of funds and as limited by the **[SEE NOTE - 7 - CHOOSE: (1)** *Section 594 Program Limit for Ohio* **(2)** *Section 594 Program Limit for North Dakota***]** and the *Section 102 Limit*, in an amount equal to the difference.

2. Should the interim or final accounting, as applicable, show that the total contributions provided by the Government for *total project costs* and the costs of any data recovery activities associated with historic preservation exceed the Government's total required shares thereof, the Non-Federal Sponsor shall refund the excess amount to the Government within 90 calendar days of the date of completion of such accounting by delivering a check payable to "FAO, USAED, **[APPROPRIATE USACE DISTRICT & EROC]**" to the District Engineer or providing an Electronic Funds Transfer in accordance with procedures established by the Government. In the event the Government is due a refund and funds are not available to refund the excess to the Government, the Non-Federal Sponsor shall seek such appropriations as are necessary to make the refund.

D. The Non-Federal Sponsor shall provide the contribution of funds required by Article II.L. of this Agreement for acquisition of lands, easements, or rights-of-way or performance of *relocations* for the *Project* on behalf of the Non-Federal Sponsor in accordance with the provisions of this paragraph.

1. No later than 30 calendar days prior to the Government incurring any financial obligation for acquisition of lands, easements, or rights-of-way or performance of *relocations* for the *Project* on behalf of the Non-Federal Sponsor, the Non-Federal Sponsor shall provide the Government with the full amount of the funds required to cover the costs of such work by

delivering a check payable to "FAO, USAED, **[APPROPRIATE USACE DISTRICT & EROC]**" to the District Engineer, or verifying to the satisfaction of the Government that the Non-Federal Sponsor has deposited the required funds in an escrow or other account acceptable to the Government, with interest accruing to the Non-Federal Sponsor, or providing an Electronic Funds Transfer of the required funds in accordance with procedures established by the Government.

2. The Government shall draw from the funds provided by the Non-Federal Sponsor such sums as the Government deems necessary to cover the Government's financial obligations for acquisition of lands, easements, or rights-of-way or performance of *relocations* for the *Project* on behalf of the Non-Federal Sponsor as they are incurred. If at any time the Government determines that the Non-Federal Sponsor must provide additional funds to pay for such work, the Government shall notify the Non-Federal Sponsor in writing of the additional funds required and provide an explanation of why additional funds are required. Within **[SEE NOTE – 21 - NOT TO EXCEED 30]** calendar days from receipt of such notice, the Non-Federal Sponsor shall provide the Government with the full amount of the additional required funds through any of the payment mechanisms specified in paragraph D.1. of this Article.

3. At the time the Government conducts the interim or final accounting, as applicable, the Government shall conduct an accounting of the Government's financial obligations incurred for acquisition of lands, easements, or rights-of-way or performance of *relocations* for the *Project* on behalf of the Non-Federal Sponsor and furnish the Non-Federal Sponsor with written notice of the results of such accounting. If outstanding relevant claims and appeals or eminent domain proceedings prevent a final accounting of such work from being conducted in a timely manner, the Government shall conduct an interim accounting of such work and furnish the Non-Federal Sponsor with written notice of the results of such interim accounting. Once all outstanding relevant claims and appeals and eminent domain proceedings are resolved, the Government shall amend the interim accounting to complete the final accounting and furnish the Non-Federal Sponsor with written notice of the results of such final accounting. Such interim or final accounting, as applicable, shall determine the Government's total financial obligations for acquisition of lands, easements, or rights-of-way or performance of *relocations* for the *Project* on behalf of the Non-Federal Sponsor and the Non-Federal Sponsor's contribution of funds provided thereto as of the date of such accounting.

a. Should the interim or final accounting, as applicable, show that the total obligations for acquisition of lands, easements, or rights-of-way or performance of *relocations* for the *Project* on behalf of the Non-Federal Sponsor exceed the total contribution of funds provided by the Non-Federal Sponsor for such work, the Non-Federal Sponsor, no later than 90 calendar days after receipt of written notice from the Government, shall make a payment to the Government in an amount equal to the difference by delivering a check payable to "FAO, USAED, **[APPROPRIATE USACE DISTRICT & EROC]**" to the District Engineer or providing an Electronic Funds Transfer in accordance with procedures established by the Government.

b. Should the interim or final accounting, as applicable, show that the

total contribution of funds provided by the Non-Federal Sponsor for acquisition of lands, easements, or rights-of-way or performance of *relocations* for the *Project* on behalf of the Non-Federal Sponsor exceeds the total obligations for such work, the Government, subject to the availability of funds, shall refund the excess amount to the Non-Federal Sponsor within 90 calendar days of the date of completion of such accounting. In the event the Non-Federal Sponsor is due a refund and funds are not available to refund the excess amount to the Non-Federal Sponsor, the Government shall seek such appropriations as are necessary to make the refund.

ARTICLE VII - DISPUTE RESOLUTION

As a condition precedent to a party bringing any suit for breach of this Agreement, that party must first notify the other party in writing of the nature of the purported breach and seek in good faith to resolve the dispute through negotiation. If the parties cannot resolve the dispute through negotiation, they may agree to a mutually acceptable method of non-binding alternative dispute resolution with a qualified third party acceptable to both parties. Each party shall pay an equal share of any costs for the services provided by such a third party as such costs are incurred. The existence of a dispute shall not excuse the parties from performance pursuant to this Agreement.

ARTICLE VIII – OPERATION, MAINTENANCE, REPAIR, REHABILITATION, AND REPLACEMENT (OMRR&R)

A. Upon completion of construction and final inspection by the Government in accordance with Article II.A.6. of this Agreement, the Non-Federal Sponsor, pursuant to Article II.G. of this Agreement, shall operate, maintain, repair, rehabilitate, and replace the entire *Project*, or a completed portion thereof as the case may be, at no cost to the Government. The Non-Federal Sponsor shall conduct its operation, maintenance, repair, rehabilitation, and replacement responsibilities in a manner compatible with the *Project's* authorized purposes and in accordance with specific directions prescribed by the Government in the interim or final OMRR&R Manual and any subsequent amendments thereto.

[SEE NOTE - 22]

B. The Non-Federal Sponsor hereby gives the Government a right to enter, at reasonable times and in a reasonable manner, upon property that the Non-Federal Sponsor now or hereafter owns or controls for access to the *Project* for the purpose of inspection, if the Government determines an inspection to be necessary. If an inspection shows that the Non-Federal Sponsor for any reason is failing to perform its obligations under this Agreement, the Government shall send a written notice describing the non-performance to the Non-Federal Sponsor.

ARTICLE IX – HOLD AND SAVE

[SEE NOTE - 23: Subject to the provisions of Article XIX of this Agreement, the**]** The Non-Federal Sponsor shall hold and save the Government free from all damages arising from design, construction, operation, maintenance, repair, rehabilitation, and replacement of the *Project* and any *betterments*, except for damages due to the fault or negligence of the Government or its contractors.

ARTICLE X - MAINTENANCE OF RECORDS AND AUDIT

A. Not later than 60 calendar days after the effective date of this Agreement, the Government and the Non-Federal Sponsor shall develop procedures for keeping books, records, documents, or other evidence pertaining to costs and expenses incurred pursuant to this Agreement. Upon request of the Non-Federal Sponsor and to the extent permitted under applicable Federal laws and regulations, the Government shall provide to the Non-Federal Sponsor and independent auditors any information necessary to enable an audit of the Non-Federal Sponsor's activities under this Agreement. The costs of any non-Federal audits performed in accordance with this paragraph shall be allocated in accordance with the provisions of OMB Circulars **[SEE NOTE - 8 - CHOOSE: (1)** A-87 (2 C.F.R. available to meet the Federal share of *total project costs* and the Federal share of costs for data recovery activities associated with historic preservation in accordance with Article XVII.D. and Article XVII.E. of this Agreement the Government projects will be incurred through the then-current or upcoming *fiscal year*, or the Government or the Non-Federal Sponsor elects to terminate this Agreement.

C. In the event that the Government and the Non-Federal Sponsor determine to suspend future performance under this Agreement in accordance with Article XIV.C. of this Agreement, such suspension shall remain in effect until the Government and the Non-Federal Sponsor agree to proceed or to terminate this Agreement. In the event that the Government suspends future performance under this Agreement in accordance with Article XIV.C. of this Agreement due to failure to reach agreement with the Non-Federal Sponsor on whether to proceed or to terminate this Agreement, or the failure of the Non-Federal Sponsor to provide funds to pay for cleanup and response costs or to otherwise discharge the Non-Federal Sponsor's responsibilities under Article XIV.C. of this Agreement, such suspension shall remain in effect until: 1) the Government and Non-Federal Sponsor reach agreement on how to proceed or to terminate this Agreement; 2) the Non-Federal Sponsor provides funds necessary to pay for cleanup and response costs and otherwise discharges its responsibilities under Article XIV.C. of this Agreement; or 3) the Government terminates this Agreement in accordance with the provisions of Article XIV.C. of this Agreement.

D. If after completion of the design portion of the *Project* the parties mutually agree in writing not to proceed with construction of the *Project*, the parties shall conclude their activities relating to the *Project* and conduct an accounting in accordance with Article VI.C. of this Agreement.

E. In the event that this Agreement is terminated pursuant to this Article or Article II.E. or Article XIV.C. of this Agreement, the parties shall conclude their activities relating to the *Project* and conduct an accounting in accordance with Article VI.C. of this Agreement. The Government may reserve a percentage of total Federal funds made available for the *Project* as a contingency to pay costs of termination. Notwithstanding such termination, the Non-Federal Sponsor may continue with design and construction of the *Project*, at no cost to the Government.

F. Any termination of this Agreement or suspension of future performance under this Agreement in accordance with this Article or Article II.E. or Article XIV.C. of this Agreement shall not relieve the parties of liability for any obligation previously incurred. Any delinquent payment owed by the Non-Federal Sponsor shall be charged interest at a rate, to be determined by the Secretary of the Treasury, equal to 150 per centum of the average bond equivalent rate of the 13 week Treasury bills auctioned immediately prior to the date on which such payment became delinquent, or auctioned immediately prior to the beginning of each additional 3 month period if the period of delinquency exceeds 3 months.

ARTICLE XIV - HAZARDOUS SUBSTANCES

A. After execution of this Agreement and coordination with the Government, the Non-Federal Sponsor shall perform, or ensure performance of, any investigations for hazardous substances that the Government or the Non-Federal Sponsor determines to be necessary to identify the existence and extent of any hazardous substances regulated under the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601-9675; hereinafter "CERCLA"), that may exist in, on, or under lands, easements, and rights-of-way that either the Non-Federal Sponsor and the Government jointly determine pursuant to Article III of this Agreement, or that the Non-Federal Sponsor otherwise determines, to be required for construction, operation, and maintenance of the *Project*. However, for lands, easements, and rights-of-way that the Government determines to be subject to the navigation servitude, only the Government shall perform such investigations unless the District Engineer provides the Non-Federal Sponsor with prior specific written direction, in which case the Non-Federal Sponsor shall perform such investigations in accordance with such written direction.

1. All actual costs incurred by the Non-Federal Sponsor for such investigations for hazardous substances in, on, or under any lands, easements, or rights-of-way that the Non-Federal Sponsor and the Government jointly determine to be required for construction, operation, and maintenance of the *Project*, pursuant to Article III of this Agreement, shall be included in *total project costs* and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs.

2. All actual costs incurred by the Government for such investigations for hazardous substances shall be included in *total project costs* and shared in accordance with the provisions of this Agreement.

B. In the event it is discovered through any investigation for hazardous substances or other means that hazardous substances regulated under CERCLA exist in, on, or under any lands, easements, or rights-of-way that either the Non-Federal Sponsor and the Government jointly determine pursuant to Article III of this Agreement, or that the Non-Federal Sponsor otherwise determines, to be required for construction, operation, and maintenance of the *Project*, the Non-Federal Sponsor and the Government, in addition to providing any other notice required by applicable law, shall provide prompt written notice to each other, and the Non-Federal Sponsor shall not proceed with the acquisition of the real property interests until the parties agree that the Non-Federal Sponsor should proceed.

C. The Government and the Non-Federal Sponsor shall determine whether to initiate construction of the *Project*, or, if already in construction, whether to continue with construction of the *Project*, suspend future performance under this Agreement, or terminate this Agreement, in any case where hazardous substances regulated under CERCLA are found to exist in, on, or under any lands, easements, or rights-of-way that either the Non-Federal Sponsor and the Government jointly determine pursuant to Article III of this Agreement, or that the Non-Federal Sponsor otherwise determines, to be required for construction, operation, and maintenance of the *Project*. Should the Government and the Non-Federal Sponsor determine to initiate or continue with construction of the *Project* after considering any liability that may arise under CERCLA,

the Non-Federal Sponsor shall be responsible, as between the Government and the Non-Federal Sponsor, for the costs of cleanup and response, including the costs of any studies and investigations necessary to determine an appropriate response to the contamination. Such costs shall not be considered a part of *total project costs*. In the event the Non-Federal Sponsor does not reach agreement with the Government on whether to proceed or to terminate this Agreement under this paragraph, or fails to provide any funds necessary to pay for cleanup and response costs or to otherwise discharge the Non-Federal Sponsor's responsibilities under this paragraph upon direction by the Government, the Government, in its sole discretion, may either terminate this Agreement or suspend its future performance under this Agreement, including reimbursement pursuant to Article II.D. of this Agreement.

D. The Non-Federal Sponsor and the Government shall consult with each other in accordance with Article V of this Agreement in an effort to ensure that responsible parties bear any necessary cleanup and response costs as defined in CERCLA. Any decision made pursuant to paragraph C. of this Article shall not relieve any third party from any liability that may arise under CERCLA.

E. As between the Government and the Non-Federal Sponsor, the Non-Federal Sponsor shall be considered the operator of the *Project* for purposes of CERCLA liability. To the maximum extent practicable, the Non-Federal Sponsor shall operate, maintain, repair, rehabilitate, and replace the *Project* in a manner that will not cause liability to arise under CERCLA.

ARTICLE XVI - CONFIDENTIALITY

To the extent permitted by the laws governing each party, the parties agree to maintain the confidentiality of exchanged information when requested to do so by the providing party.

ARTICLE XVII - HISTORIC PRESERVATION

A. The Government shall ensure compliance with Section 106 of the National Historic Preservation Act (16 U.S.C. 470f; hereinafter "Section 106") prior to initiation of construction by the Non-Federal Sponsor. At the Government's request, the Non-Federal Sponsor shall prepare information, analyses, and recommendations as required by Section 106 and implementing regulations. Any costs incurred by the Non-Federal Sponsor relating to compliance with this paragraph shall be included in *total project costs* and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs. Any costs incurred by the Government relating to compliance with this paragraph shall be included in *total project costs* and shared in accordance with the provisions of this Agreement.

B. The Non-Federal Sponsor shall perform any identification, survey, evaluation, or mitigation (except for data recovery activities associated with historic preservation) of historic properties the Government determines necessary for the *Project*, in accordance with this paragraph.

1. The Non-Federal Sponsor shall ensure that its studies are conducted by qualified archaeologists, historians, architectural historians and historic architects, as appropriate, who meet, at minimum, the Secretary of the Interior's Professional Qualifications Standards. The Non-Federal Sponsor shall submit study plans and reports to the Government for review and approval and shall be responsible for resolving any deficiencies.

2. In the event the Government determines that mitigation (except for data recovery activities associated with historic preservation) should be undertaken due to possible adverse effects to significant archeological or historical properties, the Non-Federal Sponsor shall formulate a plan in consultation with the Government and any other parties involved in the development of a Memorandum of Agreement executed in accordance with Section 106.

3. The Non-Federal Sponsor shall be responsible for implementing mitigation (except for data recovery activities associated with historic preservation) prior to the initiation of any construction activities affecting historic properties.

4. Any costs of identification, survey, evaluation, and mitigation (except for data recovery activities associated with historic preservation) of historic properties incurred by the Non-Federal Sponsor pursuant to paragraph B. of this Article shall be included in *total project costs* and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article X.C. of this Agreement to determine reasonableness, allocability, and allowability of such costs.

C. The Non-Federal Sponsor shall include provisions in all of its construction contracts for the protection of cultural resources discovered during construction. These provisions shall include, at a minimum, the requirement to cease all work in the immediate area of a discovered cultural resource until the situation is properly evaluated, and the requirement to immediately provide verbal and written notice to the Non-Federal Sponsor and Government in the event of such discovery. Upon receipt of notice that cultural resources have been discovered, the Government, pursuant to its responsibilities under the National Historic Preservation Act, must authorize further action or study before construction may continue. If the Government concludes that such discovery warrants consultation under the National Historic Preservation Act, the Non-Federal Sponsor shall participate as a consulting party. In such a case, construction shall not continue until the Government sends written notification to the Non-Federal Sponsor. Where the Non-Federal Sponsor elects to perform the construction using its own forces, the same procedures shall be followed.

D. The Government, as it determines necessary for the *Project*, shall perform any data recovery activities associated with historic preservation. As specified in Section 7(a) of Public Law 86-523, as amended by Public Law 93-291 (16 U.S.C. 469c(a)), the costs of data recovery activities associated with historic preservation for this *Project* and all other projects in **[SEE NOTE - 7 - CHOOSE: (1)** Ohio **(2)** North Dakota**]** implemented pursuant to the Section 594 Program shall be borne entirely by the Government up to the statutory limit of one percent of the total amount authorized to be appropriated to the Government for the Section 594 Program in **[SEE NOTE - 7 - CHOOSE: (1)** Ohio **(2)** North Dakota**]**. None of the costs of data recovery activities associated with historic preservation shall be included in *total project costs*.

E. The Government shall not incur costs for data recovery activities associated with historic preservation that exceed the statutory one percent limit specified in paragraph D. of this Article unless and until the Assistant Secretary of the Army (Civil Works) has waived that limit, and the Secretary of the Interior has concurred in the waiver, in accordance with Section 208(3) of Public Law 96-515, as amended (16 U.S.C. Section 469c-2(3)). Any costs of data recovery activities associated with historic preservation that exceed the one percent limit shall not be included in *total project costs* but shall be shared between the Non-Federal Sponsor and the Government consistent with the cost sharing requirements of the Section 594 Program, as follows: 25 percent will be borne by the Non-Federal Sponsor and 75 percent will be borne by the Government.

B. The Non-Federal Sponsor intends to fulfill its obligations under this Agreement. The Non-Federal Sponsor shall include in its budget request or otherwise propose appropriations of funds in amounts sufficient to fulfill these obligations for that **[SEE NOTE - 28 - CHOOSE: (1)** year, **(2)** biennium,**]** and shall use all reasonable and lawful means to secure those appropriations. The Non-Federal Sponsor reasonably believes that funds in amounts sufficient to fulfill these obligations lawfully can and will be appropriated and made available for this purpose. In the event funds are not appropriated in amounts sufficient to fulfill these obligations, the Non-Federal Sponsor shall use its best efforts to satisfy any requirements for payments or contributions of funds under this Agreement from any other source of funds legally available for this purpose. Further, if the Non-Federal Sponsor is unable to fulfill these obligations, the Government may exercise any legal rights it has to protect the Government's interests related to this Agreement.

[SEE NOTE - 29]

ARTICLE XX – TRIBAL SOVEREIGN IMMUNITY
