

## **Western Rivers Eighth Coast Guard District – 2018 Missouri River Bridge Updates**

### **Current Activity:**

Washington Replacement Bridge: M 67.6 MOR, work activities continue. Steel girder installation ongoing, will be working around the navigation channel through June of 2018. All work to be completed by year end. We expect minimal impacts to navigation. For additional information, mariners may contact work boat (Piasa) on VHF-FM channel 16. Demolition of old bridge to occur early 2019.
