

## Conservation Easement Holder List

The following is a list of not-for-profit organizations, government agencies, and private land managers that have requested to be included on this list of potential grantees of conservation easements. These conservation easements are required by regulation for lands used for compensatory mitigation as outlined in the Department of the Army (DA) permit issued by the Kansas City District, Corps of Engineers. This list of potential conservation easement holders is not all inclusive. There may be other not-for-profit organizations, government agencies and/or private land managers that are not on this list. The Kansas City District provides this list as a service to DA permit recipients and to the general public. The inclusion of any organization, agency, or private land manager on this list does not constitute an endorsement by the Corps of Engineers. Users of this list must satisfy themselves that any listed organization, agency, or private land manager is legally eligible to be designated as a conservation easement grantee in the particular state in which the conservation easement will be granted. For additional information concerning this list, or if your organization would like to be included on this list, please contact Mr. Douglas Berka at 816-389-3657 (voice), 816-389-2032 (FAX), or [douglas.r.berka@usace.army.mil](mailto:douglas.r.berka@usace.army.mil) (email).
