Workshop Objectives

- Unify our interagency flood risk management team.
- Share repeatable and achievable interagency successes in flood risk management.
- Enhance interagency capacity to deliver integrated and adaptive approaches to flood risk management.
Changes in USACE Strategic Direction

Goal 1: Support National Security

Goal 2: Deliver Integrated Water Resource Solutions
Objectives and actions focus on - collaboration – stakeholder engagement - systems approach - encouraging regional solutions

Goal 3: Reduce Disaster Risk
Enhance interagency disaster mitigation capabilities

Goal 4: Prepare for Tomorrow
## Changes in the NFRMP

| A United States whose economy, society, and natural landscapes are well-positioned to withstand, recover from, and adapt to ever changing flood risks. | Increase capabilities across all aspects of USACE to improve decisions made internally and externally that affect the nation’s flood risk. | 1. Improve how we manage flood risk.  
2. Improve how we support others who are managing flood risk.  
3. Improve linkages between flood risk management and other water resources challenges and opportunities |
• Silver Jackets Program
  • Maturing Program in terms of active/developing teams
  • Engine built and running…now for outputs
  • Real World stories of interagency flood risk management outcomes
• Interagency Projects
  – Achieve greater flood risk management outcomes by working in conjunction with multiple partners and leveraging their authorities, expertise, and resources (in addition to those of USACE)
Closing Thoughts

• Change can be a destabilizer and an enabler
• Opportunity to enhance our capabilities to deliver FRM
• Celebrate successes and explore how to make them repeatable
• Be willing to adapt
Questions?

• Change and Adaptation presentation up next
• Dr. Catherine O’Connor
• Director of Engineering of the Metropolitan Water Reclamation District of Greater Chicago
Week at a Glance

- Ice Breaker
- Video Screening

WHAT'S ON OUR MENU
