MEMORANDUM FOR Commanders, Major Subordinate Commands

1. Section 2011 of WRDA 2007 amends Section 203 of WRDA 2000 to modify the Tribal Partnership Program (TPP) by: expanding the types of activities that can be conducted under this program to include watershed assessment and planning activities; increasing the geographic area where such activities may be conducted; and increasing the length of time during which funds may be appropriated for these activities from 2006 to 2012. A copy of the amended act language is enclosed.

2. The modifications included in section 2011 permit the Secretary to carry out water-related planning activities, including conducting watershed assessments and planning activities that do not necessarily lead to development of a project for implementation. In addition, studies may now be conducted on lands that are within the jurisdictional area of an Oklahoma Indian tribe, as determined by the Secretary of the Interior, and are recognized by the Secretary of the Interior as eligible for trust land status under part 151 of title 25, Code of Federal Regulations.

3. Implementation Guidance.

   a. Water Resources Development Projects. Previous implementation guidance for the TPP was provided by the CECW-PG Memorandum for Commanders, Major Subordinate Commands and District Commanders dated 8 January 2002, subject: Implementation Guidance for Section 203 of the Water Resources Development Act of 2000 (WRDA 2000), Tribal Partnership Program. This existing guidance for program management and budgeting shall continue to be followed for undertaking studies under the TPP leading to recommendations for water resources development projects. Nothing in the revised authority provides authority for implementing projects; therefore, congressional construction authority will be required to implement a project.

CECW-P

2010 of the Water Resources Development Act of 2007 ((WRDA 2007)—Watershed Authorities and River Basin Assessments. Watershed assessments and planning activities conducted under the TPP will follow the guidance in these two memorandums. Program management and budgeting for watershed studies will be subject to the same procedures as provided for studies for water resources projects under the TPP.
