

PUBLIC NOTICE

**US Army Corps
of Engineers
Kansas City District**

**Permit No. NWK-2019-00913
Issue Date: February 4, 2020
Expiration Date: March 5, 2020**

30-Day Notice

**Notice of Proposed Adverse Effects to
a 30-Foot Single Span Steel Beam Bridge
in Douglas County, Kansas**

The Kansas City District will comply with the National Historic Preservation Act (NHPA) of 1966 and 36 CFR 800. The purpose of this Public Notice is to allow the public to express their views on resolving adverse effects concerning the proposed replacement of a single span 30-foot long steel beam bridge constructed in 1932 (Bridge 0532-0300) and eligible for listing on the National Register of Historic Places. The proposed bridge replacement is eligible for Nationwide Permit (NWP) 14 authorization; however, in accordance with NWP general condition 20, the project must comply with the provisions of 33 CFR Part 325, Appendix C and Section 106 of the NHPA. A total of six (6) steel beam bridges dating from 1932 to 1939 were identified within Douglas County. Through consultation with the SHPO, a mitigation plan was developed that would require the preservation and nomination to the National Register of one steel beam bridge (Bridge 0575-0670). The five remaining bridges could be repaired or removed at the discretion of Douglas County provided a Corps authorization is obtained. The Corps is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties. Additional information about this project may be obtained by contacting **Richard Chong, U.S. Army Corps of Engineers – Kansas City Regulatory Office, 601 East 12th Street, Kansas City, Missouri 64106 at telephone 816-389-3846 or via email at Richard.R.Chong@usace.army.mil**. All comments to this public notice should be related to the proposed adverse impacts to the identified structure and directed to the above address.

APPLICANT: Douglas County Public Works
3755 E 25th Street
Lawrence, Kansas 66047

PROJECT LOCATION (As shown on the attached location map): The project is located on a tributary to Rock Creek at E 300 Road, Sections 19 & 20, Township 14 South, Range 18 East, in Douglas County, Kansas.

Latitude: 38.8161 --- Longitude: -95.4462

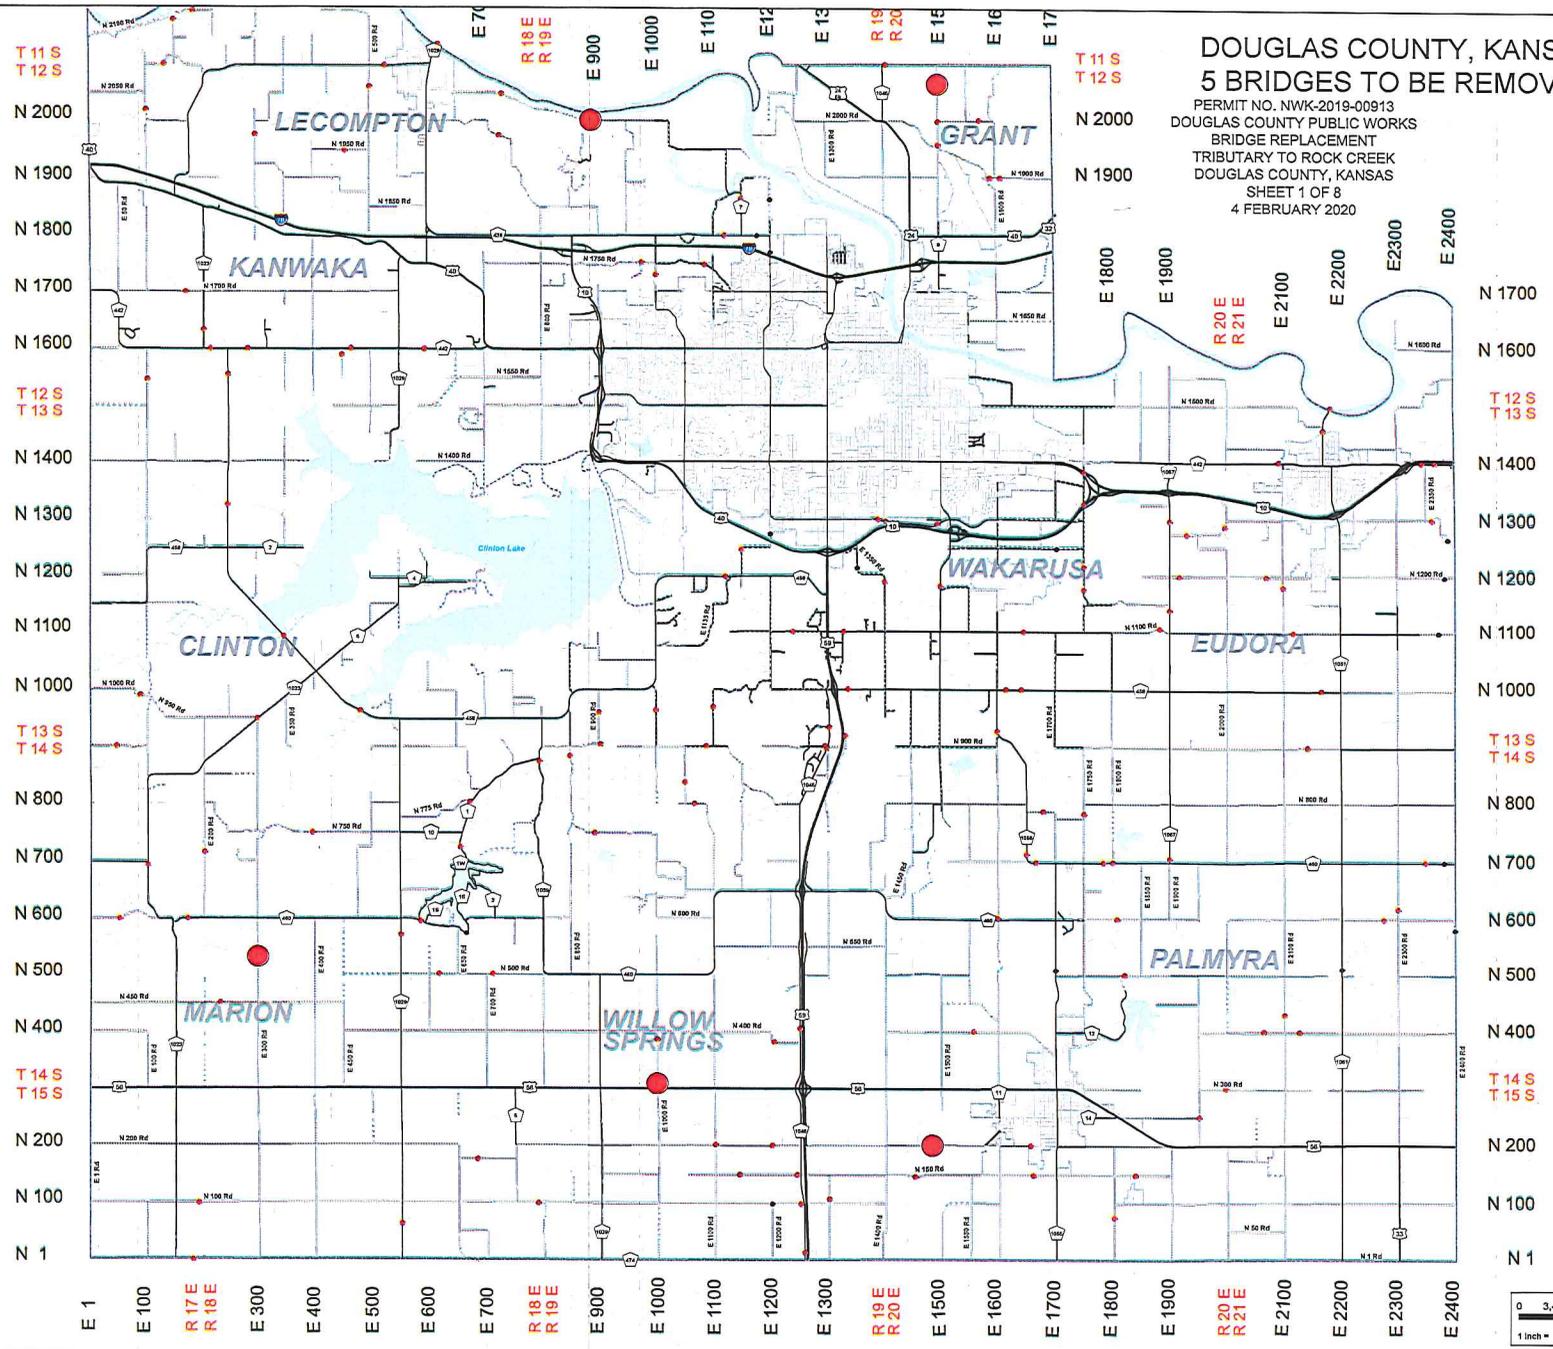

AUTHORITY: Section 404 of the Clean Water Act (33 USC 1344)

ACTIVITY: Douglas County Public Works is proposing to remove the existing single span 30-foot steel beam bridge and replace it with a 3-span (24'32'-24') reinforced concrete bridge. Grading would be required between the abutments and piers. The proposed work would result in the permanent discharge of fill material over 672 square feet (0.015 acres) of waters of the United States.

PUBLIC HEARING: Any person may request, in writing, prior to the expiration date of this public notice, that a public hearing be held to consider this application. Such requests shall state, with particularity, the reasons for holding a public hearing.
