PUBLIC ADVISORY On JACKSONVILLE DISTRICT REGULATORY OPERATIONS

Please note that all Jacksonville District Regulatory Offices, including field support in the Commonwealth of Puerto Rico, are currently closed to walk-in visitors, for the health and safety of Corps staff and the public. Necessary changes in procedures, to reduce contact and limit interaction with the public, will remain in effect until further notice. The Regulatory Division will continue operations, largely limited to communication via telephone and electronic means. Currently, all field engagements have been cancelled until further notice. Staff have been positioned to use alternate work locations and necessary means to address Regulatory requests.

Members of the public requiring assistance with Regulatory permitting questions may contact their local Regulatory Office by using the following link:
