Modification-2

United States Marine Corps  
Blount Island Support Facility  
5880 Channel View Boulevard  
Jacksonville, Florida 32226

Ladies and Gentlemen:

The U.S. Army Corps of Engineers (Corps) has completed the review and evaluation of your modification request, received on January 16, 2019, in which you asked to revise the work authorized by Department of the Army (DA) permit number SAJ-1991-02068. The DA permit, dated May 14, 2014, authorized the permittee to annually maintenance dredge approximately 300,000 cubic yards of dredged material from the Marine Corps Slipway Channel at Blount Island. The work will be conducted by cutter-suction, mechanical (excavator or clamshell) and/or hopper dredge. The channel will be maintenance dredged to -38 feet Mean Lower Low Water (MLLW) (plus -2 feet allowable overdepth). The dredged material will be disposed in the Dayson Island Dredged Material Management Area (DMMA). In addition, the return water from the two 30 inch outfall pipes in the DMMA is authorized under the permit. The project site is located in navigable waters of the United States, in the St. Johns River, at the Marine Corps Slipway Channel at Blount Island in Sections 20 and 29, Township 01 South, Range 28 East, Jacksonville, Duval County, Florida.

The proposed modification would result in the modification of the authorized work. The permittee is authorized to maintenance dredge to a depth of -50 feet MLLW (plus -2 feet of allowable overdredge) between stations 6+00 and 8+32.6. The modification must be made in accordance with the two pages of enclosed construction drawings.

The impact of your proposal on navigation and the environment has been reviewed and found to be insignificant. The permit is hereby modified in accordance with your request. You should attach this letter to the permit. All other conditions of the permit remain in full force and effect.

If you have any questions concerning this permit modification, please contact the project manager Shannon White at the letterhead address, by telephone at 904-232-1681 or by electronic mail at [shannon.c.white@usace.army.mil](mailto:shannon.c.white@usace.army.mil).

Thank you for your cooperation with our permit program. The Corps' Jacksonville District Regulatory Division is committed to improving service to our customers. We strive to perform our duty in a friendly and timely manner while working to preserve our environment. We invite you to complete our automated Customer Service Survey at [http://corpsmapu.usace.army.mil/cm\\_apex/f?p=regulatory\\_survey](http://corpsmapu.usace.army.mil/cm_apex/f?p=regulatory_survey). Please be aware this Internet address is case sensitive; and, you will need to enter it exactly as it appears above. Your input is appreciated – favorable or otherwise.
