

Joslyn Site News from the Corps

Sent WED 03/25/2020 6:56 AM

Hello from the U.S. Army Corps of Engineers Buffalo District:

The Corps' Formerly Utilized Sites Remedial Action Program (FUSRAP) priorities are to be protective of human health and the environment, to ensure that work is conducted in a safe and efficient manner, and prevent the spread of contamination. Due to the COVID-19 Pandemic and in the interest of being protective of our site workers, the remedial investigation field work for the Joslyn FUSRAP Site in Fort Wayne, Indiana, has been postponed and is tentatively scheduled to start in May 2020.

If you know someone that is interested in the Joslyn FUSRAP Site and would like to be added to the electronic or postal distribution lists, please ask them to email fusrap@usace.army.mil.
